PowerVolt is ROHS2 (2011/65/EU) Compliant.

PowerVolt is a leading U.S. based manufacturer of Class 2, VDE, Audio/Video and power transformers. Our transformers have been ROHS1 (2002/95/EC) compliant since 2005 and we are also compliant to the latest ROHS2 directive (2011/65/EU).

In 2013 the EU released their latest ROHS directive, known as directive 2011/65/EU. It maintains restriction on the same compounds as the 2005 directive (2002/95/EC) with exceptions for certain industries.

Since PowerVolt has been compliant to ROHS1 since 2005, **we are compliant to ROHS2**. We are manufacturing components and not complete products, we will accommodate ROHS2 compliance by either providing this letter, adding CE mark or updating our datasheets and websites accordingly.

Feel free to contact us if you have any additional questions.

Benefits of Using PowerVolt Group:

- Over 30 years of experience with power transformers.
- Leading the industry with cost effective solutions and drop in replacement to competitive brands.
- Competitive pricing.
- Global supply chain provides risk-free and reliable product(s) design and delivery.
- Supply chain programs (e.g. Just in Time, Consignment, KanBan) available.

To request product literature please visit us at www.powervolt.com or call us at 630-628-9999.

PowerVolt Group has been producing quality custom and pre-designed transformers and linear DC power supplies since 1986. Our Quality Policy is simple, and effective:

- A) Compliance to Requirements.
- B) Continual Improvement.
- C) Personal Pride in our Work.

Feel free to take advantage of our pre-designed models, or let us customize a transformer to your particular needs. Either way, you've come to the right place.
